15.02.19**

THE FIRST OF MANY!

Welcome to Meadowcroft School's very first newsletter! Here, you can keep up to speed on all the fun we're having at our school on a weekly basis! On the left, you'll find which site is the focus of each page's news!

CATERING GOODIES!

One thing you can be sure of at the Works is the cooking, and this week was no exception. Spearheaded by Mrs Clayton, students from both Pinecones and Conkers classes whipped up an assortment of flour based goodies. Conkers, filled with sweet tooth, chose tarts as their focus (very much appreciated by yours truly). Pinecones kept things traditional, creating a plentiful supply of superbly fluffy bread rolls.

DUNGEONS & DRAGONS!

Mrs Robinson, a self-proclaimed geek and proud, graced Cedar with her Dungeons and Dragons set. Bobby's strategic prowess was in no way wasted here, callously making short work of Matthew's more 'go with the flow' approach to the game. Upon defeat, Matthew simply pointed at his shirt with "Belgian lives Matter" emblazoned across it.

Bobby simply replied... 'Nothing personal mate'.

ROAD COLLISIONS

Finally, two police officers took the time to visit the site to spread awareness concerning road collision fatalities and their investigative process within the force. With Motor Mechanics being a vocational favourite at Meadowcroft, this kind of key knowledge concerning the decision-making pitfalls people fall victim to is paramount in keeping our young people safe when the time comes. Thankfully, the presentation provided by both officers allowed pupils to walk away with an increased awareness and perspective. Curtis certainly had a lot of questions, some less conventional than others (as always).
